RE: WT Docket No. 02-285 RM - 1077, Amendment of Sections 90.20 and 90.175 of the Commission's Rules for Frequency Coordination of Public Safety Frequencies in the Private Land Mobile Radio Below the 470 MHz Band

Dear Ms. Dortch:

I represent the Wisconsin Chiefs of Police Association on the Wisconsin State Patrol Emergency Radio Network (WISPERN) Governing Committee and I also chair this committee. The purpose of this letter is to offer my support for a change in the aforementioned FCC Rule. In essence this rule change will open the frequency coordination process for public safety channels in bands below 470 MHz. This proposal will provide applicants with a choice of coordinators, faster processing, and reduced costs. It will also allow for "one-stop shopping" for applicants seeking multiple frequencies.

I would very much appreciate if you would forward my comments to the members of the Commission.

Sincerely,

Thomas J. Czaja
Chief of Police

TJC/
